

What can I expect if I choose a NESCol course?

- Young people can study a range of both school and College qualifications at the same time
- Choosing a School Link course will require pupils to attend a College Campus involving independent travelling.
- When being taught by a College lecturer young people will be treated like a College student.
- College is an adult learning environment and we expect the same adult behaviour of school pupils as we do of our full time students.
- College courses can mean missing some school classes – so additional commitment to catching up on missed work is essential.
- When attending a College course we expect pupils to behave as though they are arriving at work – on time and well prepared.

What is NESCol?

North East Scotland College is the single largest provider of vocational education and training in the North East of Scotland. We have a course to suit everyone; whether you're fresh out of school, currently working, returning to education or simply want to try something new - whatever your educational or occupational background, an opportunity awaits at NESCol.

We aim to deliver inspirational teaching alongside flexible and accessible courses from each of our modern and well-equipped campuses. Coming to College is a big step and although you are responsible for your own learning, we have a number of expert teams in place to provide support and guidance to help you along the way. Small classes, regular tuition and a range of learning support options are all part of the experience.

*“As they move into the senior phase, young people of all abilities should **have the opportunity to follow industry relevant vocational pathways alongside academic studies.**”* Education Working For All – June 2014

Blend school and college with NESCol

By choosing one of the many courses available for Portlethen Academy students at NESCol you have the opportunity to develop new life skills, study a wider range of qualifications and find out what Further Education is really like. This gives **you** the chance to follow relevant vocational pathways alongside your academic studies in school. Whatever your career aspirations are, there is something for you in our Senior Phase at Portlethen Academy.

What is available to study?

City and Guilds Level 1 Beauty Therapy SCQF 4

Develop beauty therapy skills which will give you the opportunity to undertake further training and qualifications on leaving school, or an opportunity to enter suitable employment.

City and Guilds Level 1 Hairdressing SCQF 4

Develop specific hairdressing skills which will give you the opportunity to undertake further training and qualifications on leaving school, or an opportunity to enter suitable employment.

City and Guilds Introduction to Vehicle Technology SCQF 4

This course will give you an introduction to vehicle technology through a practical course which will offer you an industry recognised qualification

Preparation for Work Supported Learning School Link SCQF 3

This course allows you to try out different options at College, which will help you to plan your future and help you to decide whether or not you might like to attend College full-time after leaving school. It also helps you to build key transferrable skills that will prove extremely useful when you progress towards further study or employment.

What is available to study?

Skills for Work N5 Construction Crafts

This course is aimed at pupils who are interested in working in the construction industry, and recognises that many will not have the experience or the knowledge of the different trades to be able to make an informed choice for future studies or when considering Modern Apprenticeships. The course therefore involves a number of short units that allow pupils to try out and develop their skills across a range of trades. By completing this course at National 5 level, you will be developing important skills to prepare you for undertaking additional training and qualifications when you leave school, or for entering suitable employment via a Modern Apprenticeship programme.

Skills for Work N5 Early Education and Childcare

This course will introduce you to physical and emotional child development and the importance of the use of play in the early education of children. The course will allow you to develop fundamental good practice skills, and become well-equipped for going on to further study or employment.

Skills for Work N5 Health Sector

This course will introduce you to essential care values, human health and development. You will study a range of units and develop industry-related good practice - excellent preparation for your progression towards further study or employment.

PDA Politics SCQF 7

This one year programme will introduce you to political concepts and theories of the state. Being able to evaluate concepts and apply them to theories is central to an understanding of politics. The course comprises of two units at SCQF Level 7

One college, many locations

Aberdeen City Campus

The Aberdeen City Campus is situated in the heart of Aberdeen city centre, within walking distance of shops, restaurants and cafés. It also has excellent access to local and national transportation links such as rail and bus services. The building is modern and dynamic, with state-of-the-art learning facilities and a wide range of social areas available to all of our students. Recently the campus has undergone a change to its exterior, with a re-cladding project boosting the energy use efficiency of the campus - reducing carbon emissions, energy consumption and energy maintenance costs. The modern exterior now reflects the equally modern interior and state-of-the-art facilities inside the building, offering a welcoming learning environment for all.

Aberdeen City Campus boasts a range of exciting learning and teaching facilities including a TV studio, training salons, training restaurant, computing labs, science labs, a basement studio theatre, art workrooms and more!

Aberdeen Altens Campus

The Aberdeen Altens Campus houses many of the engineering, construction and automotive courses on offer, and is perfectly situated at the beginning of a main transport route to Stonehaven and the South. The building has been designed and landscaped to provide lots of social areas, which are vital to the life of any modern educational campus.

For information on other NESCol locations visit: www.nescol.ac.uk

What is available to study?

Foundation Apprenticeships

Foundation Apprenticeships are a new opportunity for Senior Phase pupils developed by Skills Development Scotland, in conjunction with Sector Skills Councils. They are offered by NESCol in partnership with local industry partners. Combining contextualised work-based learning and classroom-based learning, these programmes have been designed to meet the needs of young people whilst being responsive to the needs of the labour market.

Starting in S5, this 2 year programme combines course work and extended work experience to lead to an exciting new industry recognised qualification at SCQF Level 6 (the same level as a Higher).

This new national qualification will support access to College, University or the workplace, depending on what suits each individual. By taking part in this blended experience, pupils will be well-equipped with industry standard skills and core knowledge, whilst becoming better prepared to make the transition from school into whatever their chosen next step might be.

Foundation apprenticeships are being offered in 2019 / 20 in

- Accountancy*
- Business (Pupils must have passed Higher Business Management)
- Children and Young People*
- Civil Engineering
- Creative and Digital Media
- Electrical Engineering
- Food and Drink Technologies
- IT Software
- Mechanical Engineering
- Scientific Technologies (Lab Skills)
- Social Care and Healthcare*

S5 pupils who are interested in doing this must be committed to staying on into S6 and studying the course for two years.

* These courses will also be offered within school at Portlethen Academy

What is available to study?

NPA Exercise & Fitness Leadership

In this course you will be introduced to specific operational issues and rationale behind the use of circuit, cardiovascular and fixed weight training techniques and equipment, and will develop safe and effective practical skills in these areas.

NPA Technical Theatre

This course is designed to provide candidates with a range of design skills for use in technical theatre. Candidates use design skills as well as specialising in specific areas such as lighting, sound, prop making or model set construction

Skills for Work N4 Engineering

This course is designed to give you a broad introduction to engineering, helping you decide which discipline you may be interested in progressing to on leaving school.

Skills for Work N5 Hospitality

This course is designed to build essential skills in working in both kitchen and front of house environments within the Hospitality sector.

Skills for Work N5 Travel and Tourism

This programme is designed to introduce you to some of the key skills and concepts involved in working in the Travel and Tourism industry. This course provides an excellent preparation for progressing towards study at a higher level or employment.

STEM College Course Certificate

This course is aimed at pupils who are interested in working in the construction, automotive or engineering industries. The course will include taster sessions in seven to ten different disciplines. These may include: Automotive Engineering, Electrical Engineering, Mechanical Engineering and Construction (e.g. Bricklaying, Carpentry & Joinery, Painting and Decorating, Plumbing).
